RECHARGEABLE LIGHTING LINE  
ON THE MARKET

# AXA Greenline

COMPACT, POWERFUL AND RECHARGEABLE

**RENEWED PRODUCT**

Visibility and good vision in traffic are of essential importance to the safety of a cyclist. AXA has taken this a step further with the renewed Greenline bicycle lighting and combines these demands with greater light output, extended battery life and a more compact assortment.

## **Improved properties**

The battery life of the Greenline 15 has been increased to 6 hours. That is an increase of at least 50%! The brightness of the Greenline 30 has been increased from 30 to 35 lux.

## **Renewed design**

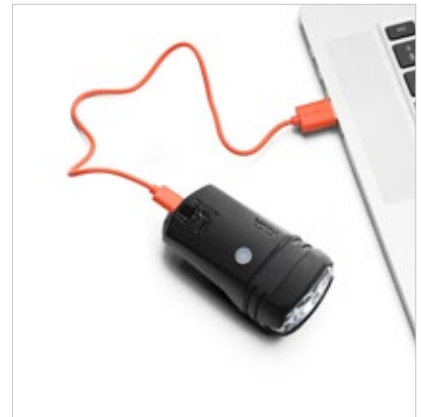

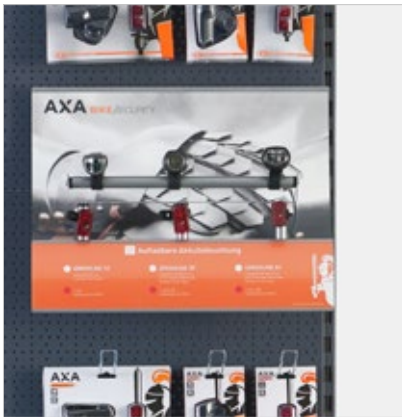

A completely renewed look with a trendy mat exterior and a handy round on and off switch. The assortment has been made more compact by omitting the Greenline 8 and there is now one option for the rear light 2 with 1-LED.

## **Strong in daily work**

The AXA Greenline is the smallest high quality rechargeable lighting line on the market. With its compact size and flexible rubber fastening strap, the lamps are easy to take with you when you leave your bicycle.

## **Light positions**

The AXA Greenline 50 and 35 have two light positions. The lamp provides less light in position 1 but the battery life is extended. The lamp in position 2 provides its full light output.

### Sales support

Get more return from your shelf with this special display. Your customers can try out the lighting products for themselves by turning them on and off.

### New packaging

The box has been made more compact so that it takes up less space on the shelf. More products on the shelf means more return! The box is also transparent now so that the product is easier to see.

### Sustainably rechargeable

The AXA Greenline is sustainably rechargeable via an USB connection or a mains adaptor. With a life span of more than 1000 recharges, AXA Greenline guarantees years of cycling pleasure.

PRODUCT	GREENLINE 50 FRONT		GREENLINE 35 FRONT		GREENLINE 15 FRONT	GREENLINE REAR
